

TECHNICAL DATA SHEET

ANTI SPATTER

DESCRIPTION: It is a non silicon (paintable) complex formulation of anti adhesive and anti spatter materials suitable for both ferrous and non ferrous metals. It prevents sticking of hot spatter to areas near the welding inside the close system. It ensures easy removal of spatter, saves chiselling & grinding cost, reduce lot of man-hours.

APPLICATION AREAS: It eliminates build up in MIG/TIG tip and nozzles of Co2 welding equipments.

PRECAUTIONS:

Can is under high pressure. Do not puncture or incinerate it even when apparently empty. Store below 50°C . Use in well ventilated areas. Do not spray into or around open flames and sparks. Exposure to heat, which exceeds 120°C, may cause busting of the can. Keep out of reach of children.

PROPERTIES

1. Applied onto the nozzle it will help to the wire outflow, will avoid its adherence and making easy the building of the welding line.
2. Avoid the adherence of the spattering nearby the welding line, equipments etc., then they will be easily removed with a simple clothing or brushing.
3. SILICONE FREE, it does not present any problem in the further painting or finishing processes.
4. Easy handling, long life. One sole spraying is enough to provide an efficient protection.
5. Economical, save time and money on spatter removal
6. Extends the useful life off the nozzles and helps to the welding wire and inert gas outflow.
7. Contain propellers that not harm the ozone layer

TECHNICAL DATA

PARAMETERS	SPECIFICATIONS
APPEARANCE	OILY LIQUID VISUAL
DENSITY AT +27°C	730 g/cc INHOUSE
ODOUR	ODOURLESS
EVAPORATION	MODERATE

STORAGE & SHELF LIFE: The product may be stored at normal ambient temperature and has a shelf life of not less 2 years with correct storage. Aerosol should always be stored below 50°C, away from direct heat and naked flame.

TECHNICAL SERVICE: AARNA LUBE PVT LTD. provides technical support under the program of research and development. For any enquiry contact us at details provided below.

Packing: - 300gm/500 ml, Aerosol Cans.
