

TECHNICAL DATA SHEET

ELECTRONICS & ELECTRICAL CLEANER

DESCRIPTION: **Electronics & Electrical Cleaner** is a specially blended colourless, transparent electronic and electrical maintenance product formulated with very special penetrating agents & solvents, which are exclusively used for cleaning of electronic and electrical components removing most stubborn deposits. It evaporates very quickly leaving no film or residue. Non-corrosive in nature.

APPLICATION AREAS: Safe and easy cleaning of sensitive plastics, electrical and electronic components like relays, limit switches, PCB's, electronic assemblies, electric motor windings, stator, bearings etc., preventing leakages, short circuiting and carbonization.

PRECAUTIONS:

Can is under high pressure. Do not puncture or incinerate it even when apparently empty. Store below 50°C . Use in well ventilated areas. Do not spray into or around open flames and sparks. Exposure to heat, which exceeds 120°C, may cause busting of the can. Keep out of reach of children.

COMPOSITION

CHEMICAL NAME	CAS-NO	CONCENTRATION
NAPHTHA HYDRO TREATED LIGHT, LOW BOILING POINT HYDROGEN TREATED NAPHTHA	642742-49-40	>=30-50<
n-hexane	110-54-3	>=5-10<
ISO PROPYL ALCOHOL	67-63-0	>=25-35<
2-butoxyethanol	111-76-2	>=1-5<
Co2 gas	111-76-2	>=(3-4)%<

STORAGE & SHELF LIFE: The product may be stored at normal ambient temperature and has a shelf life of not less 2 years with correct storage. Aerosol should always be stored below 50°C, away from direct heat and naked flame.

TECHNICAL SERVICE: AARNA LUBE PVT LTD. provides technical support under the program of research and development. For any enquiry contact us at details provided below.

Packing: - 300gm/500 ml, Aerosol Cans.
